## A Note from Mrs. Arreola:

Wow! What an amazing first week of school! We were able to practice many routines and procedures, explore inquiry-based science experiments, and focus on team building within our class. I am so excited for this school year and cannot wait to watch your children grow in 3rd Grade!!

## What We Did This Week:

### Literacy:

This week we practiced many of the routines and procedures we will use for Literacy Studio this year. We read stories that focused on kindness, being a good friend, and character development. Next week we will dive right into Literacy Studio and start creating a reading and writing community by analyzing what readers and writers do.

### Math Workshop:

This week we practiced working in small groups and set up some of the the routines we will follow during math workshop this year. We were able to play some fun math games together while setting up expectations for the year. Be sure to ask your child how we used a growth mindset to find solutions using mathematical operations to find the numbers 1-20 using only the number 4!

## Social Studies/ Science:

This week, we worked to practice team building within our classroom. We were able to explore some inquiry-based science as well. We set up expectations for safety when working on science labs. Be sure to ask your child about the bubbles we made this week.

## A Snapshot of Our Week!
